NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 APRIL 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements cover Black Head Surf Life Saving Club Incorporated as an individual entity. Black Head Surf Life Saving Club Incorporated is an association incorporated in New South Wales under the Associations Incorporations (NSW) Act 2009. The Association is domiciled in Australia.

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Simplified Disclosures adopted by the Australian Accounting Standards Board (AASB) and the requirements of the Australian Charities and Not-for Profits Commission Act 2012. The Association is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

Basis of preparation

The financial statements are presented in Australian dollars and have been prepared on an accruals basis and are based on historical costs. Cost is based on the fair values of the consideration given in exchange for assets.

The following is a summary of the material accounting policies adopted by the Association in the preparation of the financial statements.

The accounting policies have been consistently applied, unless otherwise stated.

The financial statements were approved by the Board of Management on 8th July 2022.

Estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Leases

Leases are capitalised, recognising a right to use asset and a lease liability.

The right to use asset is initially recognised at the present value of the lease payments that are unpaid at the date of recognition. Lease payments are discounted at the interest rate implicit in the lease.

The lease liability is initially recognised at the carrying amount of the right to use asset increased by the interest on the lease liability.

Right of use assets are depreciated on a straight-line basis over their estimated useful lives.

Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 APRIL 2022

Financial Instruments

Non derivative financial instruments

Non derivative financial instruments comprise investments in debt securities, trade and other receivables, cash and cash equivalents and trade and other payables.

Non derivative financial instruments are initially recognised at fair value. Subsequent to initial recognition non derivative financial instruments are measured at fair value.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and at call deposits with banks or financial institutions. Bank overdrafts that are repayable on demand are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Trade and other receivables

Trade and other receivables are stated at their amortised cost less impairment losses.

Investments

If the Association has the positive intent to hold debt securities to maturity, then they are measured at amortised cost using the effective interest rate method less any impairment losses.

Trade & other payables

Trade and other payables are stated at their cost.

Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost less, where applicable, any accumulated depreciation and impairment losses. Cost includes expenditures directly attributable to the acquisition of the asset. The costs of day to day servicing of property, plant and equipment are recognised in the profit and loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income or other expenses in the profit or loss.

Depreciation

The depreciable amount of all plant & equipment is depreciated on a straight line basis over their useful lives commencing from the time the asset is held ready for use. Land is not depreciated. Rates and methods are reviewed annually for appropriateness.

The depreciation rates used for each class of depreciable assets are:

<i>Class of depreciable asset</i>	<i>Depreciation Rate</i>
Buildings	4-5%
Plant and Equipment	10-33%
Leasehold Improvements	4-5%

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 APRIL 2022

Impairment

At each reporting date the Association reviews the carrying values of its financial assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the difference between the assets carrying amount and the estimated future cash flows discounted at the original effective interest rate is recognised through the profit and loss as an impairment loss.

The carrying value of the Association's non financial assets are also reviewed at each reporting date to determine if there is an indication of impairment. If an indication exists then the assets recoverable amount, being the higher of its value in use and its fair value less costs to sell, is estimated. An impairment loss is recognised in the profit and loss if the carrying amount exceeds the recoverable amount.

Employee benefits

Short-term benefits

Liabilities for employee benefits for wages, annual leave and sick leave arising from services rendered by employees to the reporting date represent present obligations. Employee benefits expected to be settled within one year have been measured at the amount expected to be paid when the liability is settled, plus related on-costs such as workers compensation and payroll tax (where applicable).

Long-term benefits

Other employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. The discount rate is the yield at reporting date on AA credit rated or government bonds that have maturity dates approximating the Association's obligations.

Superannuation

Contributions are made by the Association to employee superannuation funds and are charged as expenses when incurred.

Inventories

Inventories are measured at the lower of cost and net realisable value.

Income Tax

The Association has been granted an exemption from Income tax under Section 50-45 of the Income Tax Assessment Act 1997. The exempt status of the Association applies indefinitely or until such time as a change in circumstances warrants a review of the exempt status. The Association is also an income tax exempt charity and public benefolent institution and is eligible for GST and FBT concessions.

Cash

For the purpose of the statement of cash flows, cash includes:

- cash on hand and at call deposits with banks or financial institutions, net of bank overdrafts; and
- investments in money market instruments with less than 14 days to maturity.

NOTE 17: FINANCIAL RISK MANAGEMENT

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the Statement of Financial Position and the Notes to the Financial Statements.

Trade and other receivables

The Association's exposure is influenced mainly by the individual characteristics of each customer. Customers are Club members who pay annual subscriptions and people who hire and use the Clubs premises.

Investments

The Association limits its exposure to credit risk by investing in term deposits with recognised financial institutions.

Market risk

Market risk is the risk that changes in market conditions will affect the Association's income. The Association has exposure to market risk as it is reliant on the continued use of facilities and on memberships. Government initiatives can have a significant impact on this risk area and will continue to do so in future years.

Interest rate risk

Investments in held to maturity investments are not exposed to interest rate risk and they are invested at a fixed interest rate and short term receivables and payables are not exposed to interest rate risk as they are non interest bearing.

Fair value

Unless otherwise stated carrying amounts disclosed on the Statement of Financial Position are the fair value of the financial assets and liabilities.

Limitation of Scope

As a review procedure, it was not practical to extend our examination of income items beyond the accounting for amounts received as shown by the books and records of the Association.
